

Florence Afolabi

Finance professional with 3+ years of data analysis experience, focusing on budgeting, forecasting, costing and reporting. Now based in Gothenburg and currently studying database design, front end development and Swedish. Available to start immediately.

PROJECTS

[Savings Calculator](#)

A web app that calculates the date a user will reach their savings goal.

[Random Word Generator](#)

A website that pulls a word at random from a list, created to help my Swedish studies.

EXPERIENCE

[Leasehold Finance Officer](#) - London Borough of Camden

June 2015 - December 2017

Prepared revenue accounts to recover service charges from leaseholders.

Analysed costs and budgets to allow the Council to recharge certain services for the first time, increasing revenue.

Provided insight to senior management on the implications on potential new contracts representing £1. 3M income.

Identified areas for improvement and remedied the workflow with new processes.

Built and maintained reports.

[Charges Control Officer](#) - London Borough of Camden

November 2014 - June 2015

Designed and executed models to predict patterns with heat usage to accurately forecast charges.

[Accountancy Assistant](#) - London Borough of Camden

May 2014 - November 2014

Coordinated payments into rent accounts. Reconciled refunds and recalculated charges as needed.

[Administrative Assistant](#) - City of Westminster College

August 2012 - May 2014

Developed new processes for more efficient recovery of instalment payments.

Interpreted trends to reduce amounts outstanding with a change in policy the following financial year.

SKILLS

Excel, PostgreSQL, Tableau, PowerBI, JavaScript, HTML, CSS, Git, Python
